NOVUS SPIRITUS OPENING PRAYER

Dear Mother and Father God,

Please bless our efforts in this renewed religion.

Let this New Spirit of enlightenment rinse out all guilt and fear.

We come to You God, knowing that You Know our name.

Knowing that You know our hearts, minds and souls.

We want to learn our lessons so that we can make the journey of life easier.

So that we can perfect faster than we have throughout all our lives.

From this moment on we will love ourselves and others;

And let Your Supreme Love light the lamp of our souls.

We will be embued with love and judgment of will to get us on track

And keep us on our perfection scheme.

We will truly be a light in a lonely desert that enlightens many. AMEN

Arem, Shem, Beth, Sedal, Sacravalian, Ahad.

Translation:

Blessed be this Queen on high that is sacred to all who come to Her. AMEN
